DINNER RIDES: We are not doing the second ride of the month for February and March.

Beginning in April we are starting our weekly rides. The second ride will lead us to the meeting. The rest of the month will lead us to wherever the lead desires to go. That might or might not be a restaurant. Even if it does, if it does and you don't feel comfortable eating in a group please join us for the ride then ride on to your own destination. We are hoping that COVID ends soon and all goes back to the old ways soon but in the meantime do what you feel comfortable with.

WEBSITE: John is making changes to the website. He is working on putting more details on the page with links on the calendar that you can merge to your own calendar if you choose to. It will give you more details for the things you are more interested in. He is seeing how it can work with all phones including android. Thanks for all your hard work (especially from us electronically challenged people ;) it is so appreciated even if we haven't said so).

TREASURER'S REPORT: John gave us an update. Things have been pretty stable because as expected due to COVID we haven't spent much money this year.

Respectfully submitted, Madame Secretary Patti Kelsey
